

Create a form that asks someone about the oscars. The form might look something like this:

**2014 Best Picture**

... And the Oscar Goes to...

Have you seen the movies in the list below?  
☐ No ☐ Yes

Select your favorite movie(s):

- Dallas Buyers Club
- Philomena
- Her
- American Hustle
- Nebraska
- 12 Years a Slave
- Gravity
- True Grit
- The Wolf of Wall Street

Please enter your name:

Please enter your address:

Please enter your e-mail:  ☐ Send me the results

But be creative—make yours look different from mine.

Use <http://www.bc.edu/tools/formmail.cgi> to make the form send the results to you by email. Supply a hidden *recipient* and *subject*.

After putting the page on cscilab, be sure to test it and make sure you get the email. The email usually arrives within a few seconds.

Provide at least the following:

- A few text fields
- A background color of your choosing
- Hidden fields for the *recipient* and *subject*
- At least one check box
- At least one radio button
- A submit button, with a label on the button that you supply
- Optionally, try a *textarea* (maybe ask why they want to join?) and a *reset* button.

Remember your form should have a doc type, and should not have any errors or warnings.
